

NEVERalone®

The most Advanced Personal Emergency Location Device

For someone experiencing domestic violence

The **NEVERalone®** is a small precision made, High Performance, High Sensitivity, 4G LTE GSM, emergency location device that uses the latest GPS/GNSS, WiFi and Bluetooth®5 wireless technologies to achieve excellent communication and greatly extend battery life.

You can press the emergency button on the device if you are feeling under duress or needing help. An emergency message with your location is sent to the Monitoring Centre or Carer. The Monitoring Centre or Carer can then call the device to verify the alarm and type of response needed. The device will automatically answer the incoming call and allow hands free communication. One or two way voice communication is based on setup.

Used and Endorsed by:

Wesley Mission

CatholicCare

Health Services Union

4G (LTE) gsm network

Global GSM network connectivity using LTE, 4G, 3G, 2G GSM communication

Bluetooth®5

Uses ultra low power Bluetooth®5 wireless technology. The device can detect its location using the Dock or Beacons to determine the users location and keeps the device in a low power mode to greatly improve battery life

Welfare and Safety Alerts

SOS button, Out of Geo safe zone, Low Battery, Fall alert and No Movement alert, Check IN, Check OUT, Welfare monitoring alarm

Voice Prompts

Voice prompts continuously guide the user in the operation of the device

One or Two way voice calling

Inbuilt Microphone and speaker allows hands free one way or two way voice communication

GPS tracking and location

Accurate, high precision, real time location and monitoring using GPS and Assisted GPS support

Easy charging

The Docking station provides a simple method to charge the device making it easier for the user

Portable lightweight waterproof design

Compact size and easy to use. It weighs only 50g and is Waterproof to the IP67 standard allowing it to be worn in the shower

Indoor location

Locate of the device even if indoors by the use of low power Bluetooth® and WiFi technology

Waterproof to IP 67 standard

Geo fence for Keep IN or OUT

Works virtually anywhere there is GSM coverage

Low battery alerts

Simple SOS button gives peace of mind

Welfare timer

Voice Prompts give audible feedback to assist in operating the device

WHS OH&S compliant

1 or 2-way voice communication

Lanyard or Belt clip gives extra flexibility

Realtime alerts

LTE 4G and 3G GSM network

Regular status updates

Ultra high performance GPS receiver

Emergency location via GPS WiFi or Bluetooth

WiFi detection for indoor and outdoor location

Charging Dock allows easy charging

Bluetooth® 5 to improve indoor location

Fall Detection

Check IN, Check OUT to start and stop the welfare monitoring

No Motion detection for welfare monitoring

Vibrator gives silent/discrete feedback to user

Lanyard

240V wall charger

USB magnetic charging cable

Optional Belt Clip
